  - Dr. Ann Yoshihashi
  - Mr. Gerry Williams
- Facilitators
  - LCDR Weinzatl
  - HMCM(SW/AW/FMF) Mullen
- Selected from participants
  - Spokesperson
  - Scribe

Breakout Groups SOP

- **Reason/Purpose**: To take the views from the Joint Force Health Protection Concept of Operations document that focused on the operational level of Joint Force Health Protection that developed a vision for next generation joint medical response capabilities and transform that vision towards the Navy and Marine Corps' views.

- **Process:** This will be accomplished by evaluating the gaps or shortfalls that were identified with each Functional Focus Area related specifically to the program areas. The groups will identify the most important gap/shortfall in each of the program areas within each of the Functional Focus Areas. After the conference, attendees will rank the identified gaps/shortfalls via an online survey. The top 10-12 priorities identified will be used as a basis for stratifying the Navy and Marine Corps' vision for Joint Force Health Protection Concept of Operations.

Ground Rules

- Everyone Speaks; Respect the Speaker
- Titles left Outside the Door
- No Idea is Considered a Dumb Idea
- Parking Boards Will be Utilized for Issues, Decisions, and Actions
- Avoid “Side Bar Discussions”
- Start on Time/End on Time
